- This registration will be valid only for the period of agreement between the OR and the client company.
- This registration covers tonnage of the importers officially communicated in buyer's information and export declaration on the company letterhead to SSS from time to time.
- This registration covers only the uses mentioned in section 3.5 of IUCLID dossier and the chemical safety report and OR will be responsible for the same. If new uses need to be added then those should be conveyed to the OR and only after the confirmation from the OR those will be included in this registration
- In case of the tonnage band change same needs to be notified at the earliest so that same can be updated by the OR in the reach IT system, and thus maintain your compliance status. This may though in certain cases, attract additional data cost and ECHA fee
